YEAR OF ENDOWMENT

To Whom It May Concern,

We are delighted to inform you of our “**YEAR OF ENDOWMENT**” where we will be investing into the longevity of The Partners for a Better Community! The Goal of the “Year of Endowment” is creating and maintaining a pool of money for scholarships and to support our 5 core programs that are absolutely vital to our communities. The endowment will strengthen, add sustainability, and continue the advancement of our mission which is our highest priority. The key to our success are the many productive and effective partnerships of our donors, friends, and alumni. Here are a few reasons to build with us:

- Our organization is right in the heart of a growing and vibrant community
- We get the cream of the crop for our scholarships recipients
- We are the first scholarship that the students receive being that we are asking for juniors. We are the first scholarship the students and families see. So we have a lasting relationship with families.
- First Scholarship named after a Black African American Women, but it’s for all ethnicities.
- We are dedicated to making better communities through our 5 core programs.

Your philanthropy allows the PBC to grow and continue to meet the needs of the community, making us the cultural and creative engine in our community. We want to thank you in advance for your investment into the future of the PBC and trust you will continue to be proud of our people and core programs.

Sincerely,

Pastor Lance T. Johnson, Sr. CEO & Founder, The PBC
